WELCOME NOTE BY THE CONGRESS PRESIDENT OF ESCAP VIENNA 2019

Dear Industry Partners,

I am very happy to invite you to the upcoming **18th Congress of the European Society for Child and Adolescent Psychiatry (ESCAP)** in the Imperial Palace – Hofburg in the city centre of Vienna from June 30 to July 2, 2019.

ESCAP jointly organizes this congress with the "Association for Promotion of Child and Adolescent Psychiatry and Psychotherapy in Austria (ÖVF-KJPP)" on behalf of the "Austrian Society for Child and Adolescent Psychiatry, Psychosomatics, and Psychotherapy (ÖGKJP)" in Vienna.

Efforts from all over Europe and internationally are being put together to shape a programme covering a wide range of topics. We thereby intend to appeal to clinicians and researchers alike in order to stimulate exchange of information on latest research and developments of treatment.

Vienna, a multi-cultural city for centuries with an outstanding history in psychiatry and psychotherapy rendering the city an ideal location for this international meeting of child and adolescent mental health professionals.

The programme will particularly focus on the development of etiological, diagnostic, and treatment related aspects of mental disorders in young people.

A major global challenge is to shape developmentally based multimodal treatments and prevention strategies for children and adolescents in multiethnic societies.

Child and adolescent psychiatry needs to provide answers within this world of change and challenges.

Support this extraordinary congress in an exceptional meeting place, where you can share and exchange experiences and knowledge on the best strategies of diagnosing and caring individuals affected by all mental health problems children and adolescents may affect.

We are certain that you will spend a successful time in Vienna and meet a highly interested audience in all fields of Child and Adolescent Psychiatry.

Yours sincerely

6 Welcome Notes

Prof. Stephan Eliez

WELCOME NOTE BY THE CONGRESS PRESIDENT OF ESCAP

Dear supporters of youth psychiatry,

ESCAP aims for the improvement of children's mental health. Europe's very best experts share their knowledge to improve child and adolescent psychiatry in the interest of our next generation's mental health. For this purpose our congresses are famous and during the last five years we have developed an online community that supports our work continuously.

Our Geneva conference, this summer's 17th international congress, certainly was an extremely special event to us. And we know that ESCAP 2019 in Vienna will be as important.

Preparations have started already months ago. During our congresses, our core activities peak: we meet, exchange knowledge, make new plans and leap forward with our on-going projects in child and adolescent psychiatry.

Our primary focus is clinical research and the implementation of our joint knowledge in clinical practice. But do not be mistaken: ESCAP is much more than an international congress every two years. More and more we become a community of youth psychiatry experts not only child psychiatrists!

With a platform where we continuously work together, exchange our knowledge and discuss our issues. The world-wide-web enables us to do so, and moreover we make use of ECAP, our own scientific TOP-journal, while the young generation of investigators are trained by the seniors in our ESCAP Research Academy. ESCAP is not only about a biannual event.

It is full time work on the improvement of European child and adolescent mental health. You are kindly invited to take note of our sponsorship offers for the next year until July 2019, when our key activities will peak again in Vienna, Austria.

Prof. Stephan Eliez
President of ESCAP
